

GOVERNOR

Issues Call for Wandering Kentuckians to Come Home.

WILL BE GREAT GATHERING.

"Commonwealth of Kentucky, Executive Department, Frankfort: Home Coming Proclamation.

"To all absent sons and daughters of Kentucky unto whom these presents shall come, greeting:

"As the fond parent yearns for the absent child, so does your mother Commonwealth rejoice in the prospect of bringing you back, even for a visit, to the old Kentucky home. Wherever you have wandered, into whatever climes you may have gone to take up your abode, you are now by parental authority summoned back to the proud old State that gave birth to you or your forefathers. The old dinner horn, that in days of yore told you of the approaching meal, has been taken down from the wall, and there issue from its sonorous and hospitable mouth a trumpet call reaching the remotest corners of the earth, and breathing into the ear of every homesick Kentuckian the musical and irresistible appeal that he drop all else and forthwith bring his pilgrimage back to his native heath. A joyous welcome awaits you; feasts and festivals have been prepared to gladden your hearts; burgoos and barbecues will awaken old and delightful memories in you; music and song in sweetest strains, will cheer and comfort you; oratory and speech, in eloquent terms, will recount to you the love which your old state bears for you, and the interest and pride she has taken in your success in other lands. As the genial sun of spring warms into life the beauties of nature, so will the kindly glances and friendly grasps of your old friends in Kentucky inspire in you, if possible, a greater and tenderer love for the old State you once left. Peace and plenty shall be yours, and hardened indeed must be the heart that resist such an invitation and parental appeal. 'God's country' in June will put on her loveliest garb for you; nature will wear, as she can only wear in Kentucky, her brightest wreath of flowers and smiles; the feathered songsters will gaily join in the musical celebration; green pastures, shady woodlands, rolling hillsides and picturesque streams will in glorious and gorgeous style bespeak the welcome which thrills every heart.

"We have this great event for your coming in Louisville from June 18 to 17; thence you may radiate into all parts of the State, where equally hospitable welcomes will be given you.

"Now, therefore, As Governor of the Commonwealth of Kentucky, I, J. C. W. Beckham, do by these presents, and by the authority of the parent, which Kentucky claims over all her children, even unto the third and fourth generations, command each and every former Kentuckian, whether separated from you by imaginary State lines or broad seas, to come back home; if he be at the plow, the forge, the counting room, the business office, or in whatever employment, let him for the time cease his work and return home. Men, women and children, who possess the priceless heritage of having a drop of Kentucky in their veins, must obey these commands, and fail not to be with us during this gala period. It is

not necessary to issue any commands to the people here as to the treatment of the guests, for the former are anxious beyond measure to show them that the old Kentucky home is just as good now as it ever was.

"Done at Frankfort, this 9th day of May, nineteen hundred and six, and in the one hundred and fourteenth of the Commonwealth.

"J. C. W. BECKHAM, Governor,
"H. V. McChesney, Secretary of State.

"By W. F. Gray, Assistant Secretary of State."

Twenty-eight Thousand Pensioners in Kentucky.

Kentucky has 28,000 pensioners who are now being cared for by the Louisville Pension bureau. Most of these are from the civil war, but there are veterans of the Mexican and Indian wars, and a growing representation from the Spanish-American war. Many widows of veterans who took part in the war of 1812 are receiving checks quarterly from the local office and, in spite of the diminution to be expected from death, the decrease in the number sent out is small.

The Louisville office distributes \$1,000,000 each quarter to the pensioners, an average for each person of about \$12 a month. That it is eagerly received is shown by the fact that the vouchers are always sent in early and in plenty of time for an early distribution. The sending out of the checks takes two weeks. A large part of the money goes to colored pensioners.

To the Woods.

An exchange says: Man's annual relapse into nature is now in being. From all over the world come reports of strikes and labor troubles of various kinds. Eloquent orators, representing the "political outs," would have us believe that these disturbances are due to economic ills brought about by the "ins," but we know better. We have only to look into our own hearts to understand spring strikes. Their cause is the universal desire to loaf.

This is the loafing season. It is a crime against nature to work at all, and were impressive employers to double our wages and halve our hours of toil, we would still revolt against industry, easily finding technicalities on which to base excuses for walking out. There are \$30,000 men on strike in the United States, and most of them walked out only last week, after the fish began to bite. They thought themselves very shrewd in beginning the agitation that led to the severance of relations with toil in the cold winter months, and they timed it so nicely that the "crisis" would come with spring. But they fool no one.

After they have had their vacation they will go to work again at the same old wage. And they will talk largely of their "battle for the rights of man."

They have battled for the rights of man—to go a-fishing in the lazy time. Why can't they be frank and confess it?

Why should we beat about the bush as we do? Let the government take a hand in the matter and officially ordain that in the month of May no one shall labor at anything.

Stag Party.

J. H. Warner entertained a few of his gentleman friends last Thursday evening at a stag party, at his home on Sebree avenue. The boys had a royal, good time and will long remember the genial hospitality of Mr. and Mrs. Warner.

JUDGE GORDON

Keeps Up His Reputation for Rapid Work.

THE DOCKET IS WELL UP TO DATE.

Judge Flen Gordon is keeping up his reputation as a rapid worker and at the present rate will dispose of the majority of cases on docket for this term of court. Following are the most important cases disposed of so far:

Henry Cowen charged with cutting James Jewell with intent to kill was fined \$50. Jas. Haynes was fined \$50 for selling liquor to a minor.

Cord Hamby, accused of carrying concealed and deadly weapons, was fined \$25 and sentenced to ten days in jail.

Earnest Bryant, colored, was given eight years in the penitentiary for breaking into the house of R. T. Whittinghill.

Sam Chammass was fined \$300 for conducting a gambling house. The case against Dr. Bartlett of Carbondale, charged with shooting with intent to kill, was hotly contested. It was given to the jury at 2 o'clock Thursday afternoon. The jury was discharged Friday without an agreement and the case will come up again at next term.

The case against Major Gaither, colored, for killing Scott Holeman, also colored, at this place Christmas day, came up Friday. Gaither acknowledged his guilt and asked the mercy of the court. The jury in this case was out only a few minutes and brought in a verdict for imprisonment for life.

Joe Simms and Ed. Wenn were each fined \$50 for disturbing public worship.

The I. C. R. R., was fined \$50 for maintaining a common nuisance.

A fine of \$100 was assessed against the Hugh McLean Lumber Co., for not filing a statement with the secretary of state, and a fine of \$25 for maintaining a common nuisance by leaving the tops of trees in a public passway.

The L. & N. railroad was fined \$50 in one case and \$10 in another case for maintaining a common nuisance.

INSPECTOR GENERAL GAINES RESIGNS.

Adjutant General Henry R. Lawrence Will Fill Vacated Position.

Announcement has been made at the department of the Adjutant General at Frankfort that Col. Noel Gaines, of that city, who has for several years held the place of Inspector General of the State Guard, had retired from that position. Adj. Gen. Lawrence fills the place on approval of the Governor. Col. Gaines had just completed an inspection of the companies of the guard in connection with an officer of the United States army when his retirement was announced.

An Old Citizen Gone.

Mr. W. W. Showers, of Madisonville, one of that city's oldest and most respected citizens, died suddenly at his home in that city Monday morning. Mr. Showers has for years been a miller at the Madisonville flouring mills and went to his work Monday morning apparently in his usual health. During the morning he complained of a pain in his chest and went home. On reaching there he grew suddenly worse and died before medical aid could reach the house.

Mr. Showers is survived by his wife and daughter, Mrs. Eugene Morton. The funeral services were held Tuesday and interment at Odd Fellows cemetery.

LYCEUM COURSE

Prospect for Series of First Class Entertainments and Lectures During the Coming Season.

An effort is being made to provide a course of first class entertainments and lectures in Earllington during the season of 1906-07.

For several months negotiations have been pending with the Redpath Bureau of Chicago, and a splendid course of four attractions has been agreed upon provided a sufficient number of season tickets can be sold to cover the expense.

The numbers consist of the Wathena Concert Co., Mr. Arthur McManray, a monologist, and Mr. Edward Amherst, O. W. All of these are specialists in their line and will furnish splendid entertainment and instruction as well.

Howard J. Brazelton is making the canvass for season tickets which are placed at the low rate of one dollar and fifty cents, making each number cost the holder of a season ticket the small sum of thirty-seven and a half cents. It will be necessary to secure signatures for one hundred and sixty tickets before the course can be contracted for.

Such an undertaking should appeal to every lover of good music, helpful entertainment and instruction, and the opportunity which it affords should not be allowed to pass. Let every one assist in bringing to our town such a course and in making it a permanent feature of our social life.

NO MORE TOBACCO

For Preachers—Birmingham Conference Asked to Make Such Law.

A petition signed by numerous women of the Birmingham Conference was presented asking that a law be enacted requiring young preachers to take the pledge not to use tobacco.

The Committee on Temperance recommended the amendment of the discipline so as to prohibit a member of the church from acting as a liquor dispenser under a dispensary law. The report provides that it shall be the duty of a pastor to deal with any members of the church who shall sign a petition for the sale of liquor or become a bondsman for a liquor dealer. This proposed law does not apply to any person acting under court decrees. The same committee reported a resolution calling on the President and Congress to prohibit the manufacture and sale of liquor in the Panama Canal zone.

MRS. KIEBLER

And Three Children, of St. Charles, Destitute in Louisville.

A Louisville paper of recent date says:

Mrs. Dolly Kiebler, of St. Charles, Ky., and her three small sons, aged five, three and two years, were taken to the Wayfayers' Lodge last evening from the Seventh street depot, where they had spent a day and night. An effort is being made to find employment for the mother and homes for the children.

Mrs. Kiebler says she came to Louisville hoping to obtain work and to place her children in homes where she will be permitted to see them. She is a daughter of Thomas Menner, a coal miner of St. Charles, and the wife of Frank Kiebler, who was a miner at Jackson Hill. He has not written to her for nine months and she has heard that he was drowned while hunting pearls in Washaw river.

CELEBRATION

Home Coming Day to be Arranged for Hopkins County.

MEETING IS CALLED FOR FRIDAY.

A meeting in the interest of a Home Coming celebration for Hopkins County is called to be held at Madisonville Friday afternoon after the adjournment of circuit court. The hour set is 5 o'clock. Mr. Jno. B. Atkinson, Commissioner for "Home Coming Week," and Judge Jno. G. B. Hall, Vice Commissioner, conferred this week upon the matter of a home celebration and decided to call this meeting. All citizens who are interested in a Home Coming celebration to be held in Hopkins county after the week of celebration to be held at Louisville, are invited to be present and take part in the deliberations Friday afternoon. It is expected that the Madisonville business men will take a vital interest in this movement and that an appropriate celebration at Madisonville may be arranged.

Announcement is made of the appointment of Mrs. John B. Atkinson as matron and Miss Nevelene Morton of Madisonville as maid of honor. These ladies, with the commissioner and vice commissioner, will have charge of Hopkins county headquarters at the Army in Louisville during Home Coming week. A register will be kept at the county headquarters for all present and former Hopkins citizens. The register has been ordered, as well as several hundred handsome badges, which are to be distributed to former citizens of Hopkins county who visit Louisville during Home Coming week.

KENTUCKY CROP REPORT.

Condition of Growing Crops and Prospects Reported by Commissioner of Agriculture.

Frankfort, Ky., May 12—The month of April was fair, warm and dry, giving the farmers a good opportunity to recover some of the lost time caused by the bad wet weather in March. Toward the end of the month there was considerable complaint of the ground breaking cloddy and was hard to get in order for corn planting. The usual acreage of corn will be planted, though a little later than usual. The wheat crop is fairly good throughout the state, only a few counties reporting any damage to the crop. The acreage of oats is below an average on account of the lateness of the season before they could be sown. Quite a number of counties report a low per cent on the condition of plant beds, caused largely by late sowing. The yield of Burley tobacco seems to have increased slightly over the crop of 1904, while the dark has fallen off about 10 per cent in yield. The seeding of alfalfa increased largely in the first and third divisions of the state, but fell off in the second and fifth, the fourth not making any report on it.

There is quite a falling off in both cattle and hogs being fed for market. Grazing cattle and stock hogs are also below the number at this time last year. Lambs are in fair condition, but the number for the summer market is less than last year. The potato crop is about the usual crop in acres. The prospect is good for a fair crop of fruits and berries.

True madness is a jewel beyond price.

GASOLINE LAUNCH

New Proudly Floats on the Placid Bosom of Loch Mary.

George Farnsworth, an enterprising citizen of this city, has constructed in his work shop a handsome gasoline launch propelled by a three and a half horse power marine engine. This dainty little craft will seat ten people with comfort. It was formally launched Saturday afternoon in the presence of a large number of interested spectators. Owing to an insufficient battery the electric spark was too weak to ignite the gasoline and the engine did not work at first. Nollie Umstead, who is an electrical and gasoline engine expert, came to the rescue and soon had the little boat plowing through the water at a high rate of speed. Mr. Farnsworth had this boat constructed for the pleasure of himself and friends and he is to be congratulated on the success he made in his first venture as a boat builder.

SUNDAY SCHOOL CONVENTION

In 1908 to be Held in Louisville, Ky.

The twelfth International Sunday School convention will be held in Louisville for five days in the latter part of June, 1908. These dates were tentatively decided upon this week at a conference between the Louisville committee and officers of the International association, which was held in the Second Presbyterian church. W. N. Harshorn of Boston, chairman of the International Executive committee, and Marion Lawrence of Toledo, general secretary of the International, addressed the meeting and offered many suggestions for providing for holding the big convention.

The exact date of the convention will probably be from Thursday, June 18, to Tuesday, June 23, although this date is subject to change. One of the most important suggestions made was to designate one of the five days as Laymen's day and have present John Wanamaker and H. J. Heinz, prominent laymen Sunday School workers. A pastors' day will also be designated, when 2,000 Southern pastors are expected to be present.

The appointment of the following committees was suggested: Entertainment, reception, finance, transportation, halls and decoration, music, ushers, pages, press, printing, publicity, information, pulpit and Sunday school supply, exhibit and general comfort.

John Stites, chairman of the local committee, presided over the meeting.

Ladies' Book Club.

The Ladies' Book club, composed mostly of Madisonville ladies, met yesterday with Mrs. Paul M. Moore, in this city.

Mrs. Lee Gibson led with a most interesting paper on "Rome of Today," followed by a reading by Mrs. Blount Jones, president of the club.

After a most pleasant literary afternoon, an hour was spent socially, and the guests were served dainty refreshments.

Livery Firm Changes Hands.

The livery firm of Barnett & Mitchell has changed hands. Clarence Mitchell decided to go out of the business and sold his half interest to Arthur Barnett, a son of John T. Barnett. The style of the firm is now Barnett & Son. In retiring Mr. Mitchell desires to thank the people for their patronage, and Barnett & Son ask a continuation of the same.

Like to Have Been a Fire

The Bee force had a little excitement yesterday in the way of a small fire, which might have been disastrous had the foreman, Walter Martin, not discovered the floor on fire under the gas-line engine. Mr. Martin was not long (?) in making this known to the business manager, who, after several entreaties, was convinced that where there is smoke there must be fire. The hose was quickly brought to the scene of action and the blaze extinguished, with little damage done.

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and put up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

MINING NOTES.

Eastern Capitalists Purchasing Coal Lands in Western Kentucky.

Very few people realize how fast the coal lands of Western Kentucky are being sold to Eastern capitalists.

The American Coal Co., headed by J. P. Morgan & Co., have recently bought 30,000 acres with all the mines, in Union, Webster and Henderson counties. The various coal companies around Dawson, Richland, Madisonville, Belmont, Hartford and Central City—in Hopkins, Muhlenberg and Ohio counties, have in the last six months bought up over 100,000 acres, and new railroads are being opened up and built to handle this coal.

Indiana and Maryland people have bought up all the Terry coal field for sale on the lines of Christian and Hopkins counties, which adjoins the mines of the Terry Coal & Coke Co., and Empire Coal Co.

A West Virginia coal company has recently bought 18,000 acres above Central City on Green river, which practically closes out all the desirable coal lands in the Western Coal Basin.

Eastern Kentucky Coal Field.

The South and Western railroad, now under construction between the Eastern Kentucky coal fields and Spartanburg, S. C. is the newest development in connection with the opening of the immensely rich coal fields of Kentucky. Construction work has been under way for several months, and although the public has known little of the undertaking, the movement has now assumed such material shape as to leave no doubt as to the ultimate completion of the entire project. If nothing unforeseen occurs this railroad will be completed within eighteen months. One prominent coal expert who has gone thoroughly over the coal fields of Eastern Kentucky, now being opened by the Chesapeake & Ohio and South and Western lines, states that the greatest undeveloped coal field in the United States is contained in the area included in the scope of operations, and that it contains more coal, per acre, than any other field. Eleven seams, all different, are not uncommon in Pike and adjoining counties, while in the grade the product found in Eastern Kentucky will compare favorably with any other grades of soft coal produced.

Mexico's Coal Deposit.

Of all the vast mineral wealth of Mexico, the most valuable is a bed of coal that lies on both sides of the Rio Grande near Eagle Pass. It is about ninety

miles long and twenty miles wide and extends from Spofford Junction, Texas, to Sazinas, Mexico. This is the only coal in the republic, so far as is known. The miners are getting out about 3,000 tons a day, for that is all the railway can handle. As soon as enough rolling stock can be obtained the output will be doubled. There is a mountain of solid iron on the outskirts of this city valued at \$12,000,000, but nobody seems to want it, and the owners couldn't sell it for half that money. I think they would be willing to mark down the mountain to 25 per cent of their first price, but the coal is in greater demand because it is more useful.—Durango (Mex.) Correspondence Chicago Record Herald.

Do Strikes Pay?

Measured in days of labor lost the anthracite coal strike of 1902 would probably head the list of all strikes. About 140,000 men were idle for approximately 140 working days, or a total loss of 19,600,000 days of labor. With the exception of the exception of the great coal strike in England in 1893 the losses caused by the European strikes are, for the most part, much smaller than the losses in the great strikes in the United States. The losses entailed on workmen and employees by the building strike in New York City three years ago are placed at over \$60,000,000, more than half of which represents the loss in wages. In this country the average number of days lost as a result of strikes in each year from 1881 to 1900 was 7,100,000 days. The average annual loss in wages during these years was \$12,500,000. If to all these figures could be added the total number of persons killed, maimed and deserted in the course of these conflicts we would have a total that well might prompt the question, Does it pay?—Leslie's Weekly.

Em. Goodloe, who has been ill for the past week, is slowly improving.

Jas. Skeen has resumed work after being off duty several days on account of an affliction of his eyes.

FOERG'S REMEDY

Imagine the extreme gratitude of a man to induce him to permit the publication of such a testimonial as the following:

I, Henry Milan, of Evansville, Ind., formerly of Eddyville, Ky., state that I was cured of a very bad case of Blood Poison of three months standing by the use of Foerg's Remedy in the year 1896 or 1897, only having taken 4 bottles. I further state that I am now well and have never been troubled with return of that disease. This Remedy cured me sound and well, and I recommend it to anyone suffering with that. (Signed) HENRY MILAN
Attest: SANFORD MCGOWAN and J. D. LESTER

With the above information before you if you go on suffering from the curse of tainted blood, either primary, constitutional or as a result of mercurial treatment, don't rail at fate, but simply blame yourself, for here is a cure—absolute and sure. Tainted blood manifests itself in the form of Scrofula, Eczema, Rheumatic Pains, Stiff or Swollen Joints, Eruptions or Copper-colored Spots on the Face or Body, Little Ulcers in the mouth or on the Tongue, Sore Throat, Swollen Tonsils, Falling out of the Hair or Eyebrows, and finally a Leprous-Like Decay of the Flesh and Bones. If you have any one of these symptoms don't delay till too late, but go to your druggist and get a bottle of

FOERG'S REMEDY THE GREAT BLOOD PURIFIER

FREE RAILROAD FARES

EVERY DAY IN THE YEAR TO

EVANSVILLE AND RETURN

By the Merchants' Rebate Association.

THE PLAN.

1. On and after March 15, 1906, one round trip railroad fare from any town within a radius of forty miles from Evansville, Ind., will be refunded to each individual purchaser of \$25 or more from any or all of the members of the Merchants' Rebate Association.
2. In case the purchases are less than \$25 the Merchants' Rebate Association will refund the round trip fare of one mile for each \$1 purchased, but no refund will be made for less than \$5 purchases.
3. Persons living at a greater distance than forty miles may have their fares rebated. To illustrate: If you live sixty miles away you pay only twenty miles, and the Association pays for forty miles both ways.
4. No member shall refund fares or parts of fares direct.
5. When a rebate book is applied for, before it is issued, the customer must show his or her return trip ticket or a receipt from the ticket agent.
6. The total amount of each purchase must be entered on the books.
7. No rebate will be allowed unless application for the same is made at time of purchase.
8. The purchaser of the required amount of goods shall apply to the Merchants' Rebate Association, 226 Main street, for refund.

Fares Will be Refunded by the Following Members of the Merchants' Rebate Association Only:

GREAT REGATTAS.

Will be Held on Hampton Roads During

JAMESTOWN EXPOSITION 1907.

Norfolk, Va., May 14.—(Special).—Yachtsmen all over the world are turning their eyes toward Hampton Roads, where in 1907, during the period of the Jamestown Exposition there will be the largest and most beautiful assemblage of everything that floats or sails, from a warship to a catboat, that has ever been dreamed of by the most imaginative sailor man.

Every American knows that Hampton Roads is an estuary of the Chesapeake Bay, reaching from a point within Cape Charles and Henry to the mouth of the James River, where it widens into a beautiful land-locked bay, forming a safe harbor capable of comfortably accommodating the navies of the world with the merchant marine thrown in. Schoolboys recall with glowing eyes, that here the celebrated tight knot place between the Mermaid and the Monitor within sight of the green parapets of Fort Monroe.

Upon this noble sheet of water there will be held next year a series of regattas, races and aquatic events on a scale never before attempted and with a marine aggregation drawn from all parts of the earth. In the presence of five navies of the world a multitude of white-winged yachts will compete for honors and trophies well worth the effort.

Commanding a view of one hundred and sixty square miles of protected water way, the Jamestown Exposition possesses an area for a naval, marine and yachting exhibition such as has been enjoyed by no other exposition in the world's history. From the point of view of a marine spectacle, alone, it will be worth crossing oceans to witness.

Many trophies and prizes will be offered and many new boats built to contest for them. It seems probable that a new and better era for yachting as a clean and noble sport, will date from the events to occur during the Jamestown Exposition. Representative yachtsmen from the United States and Canada have joined hands with the Hampton Roads Yacht Club and Exposition Company to ensure clean sport, equitable rules, a fair field and no favor.

Giants play a part in the mythology of almost all the nations of Aryan descent. The Greeks represented them as beings of monstrous size, with hideous countenances, and placed them in abodes in volcanic districts, whither they were fabled to have been banished after their unsuccessful attempt upon heaven, when the gods, with the assistance of Hercules, imprisoned them under Aetna and other volcanoes. But modern history refutes nearly all the stories and legends concerning giants, even those of a few years back.

LOCOMOTIVE BLASTS

Insane Train Dispatcher Taken from His Post.

An insane railroad dispatcher has been handling overland trains carrying thousands of passengers and without making an error. The fact was discovered when F. E. Shea, one of the oldest train dispatchers on the Union Pacific, was taken in custody at Green River, Wyo., last Thursday and declared to be insane. The discovery that they had been working under the directions of a lunatic, risking their own lives and that of thousands of passengers, came as a shock to railroad officials and trainmen. Although subject to the vagaries of a disordered brain and likely to commit any wild act at any moment, Shea had performed his railroad duties like clock work and was one of the most reliable dispatchers on the system.

Railway Age says that in the nine days following the San Francisco earthquake—April 18 to April 26 inclusive—the Southern Pacific company carried away from the city 300,000 passengers free and 185,000 who paid their fare. Of those carried free 67,000 went to interior California points, 7,684 to other states, and 226,000 to suburban points. The value of the free transportation given by the Southern Pacific company is estimated at \$450,000.

The first excursion of the season was run on the division Sunday from Adairville to Evansville. Conductor Frazier and Engineer Ramsey of the Memphis line were in charge, with Engineer Jack Stokes as pilot. Quite a number of persons from this place took advantage of the cheap rate and made the trip.

There is such a flat car shortage existing on the L. & N. south of Montgomery, Ala., that Supt. of Transportation Phelps has rushed the Henderson division to wish all cars of this kind to Montgomery as rapidly as possible. Conductors are instructed to keep a lookout for empty flat cars and bring them south at once.

The citizens of Ridgeway Top, Tenn., twenty miles north of Nashville, are making an effort to get the L. & N. to furnish a better service from that place to Nashville. They have taken the matter up with the management of the company.

The Illinois Central railroad will commence work in a few days rebuilding forty-three miles of the old Tennessee Central Railroad between Hopkinsville and Nashville. Eighty-five pound rails will be used in this work.

Chas. H. Wyatt is working as brakeman on this division, having accepted a position last week. He is on the south local as fourth man under Conductor Dorris.

Cyrus Biggs, of Slaughterville, and J. L. Jenkins, of Sebree, have accepted employment with the transportation department of the L. & N.

Bananas are now being shipped north over the division. Two trains of this kind went through this week in charge of Conductors Rosser and O. H. Lynn.

Conductor McDowell, of the north end coal train, has resumed work after being detained at home for several days by illness in his family.

Brakeman Thos. Hart has resumed duty after a month's absence on account of the illness of his child which had a fatal termination.

Supt. Jno. W. Logsdon and Asst. Supt. M. Devery were in this city yesterday on business.

The pay car will pass over the division tomorrow distributing the coin among the boys.

Claud Wilkey, of this city, has accepted a position as brakeman on the Henderson division.

Switchman Wm. Deberry, of Henderson, spent Monday with his family here.

FERRIBLE SCAP HUMOR

Badly Affected With Sores and Crusts—Extended Down Behind the Ears—Some Years Later Painful and Itching Pustules Broke Out on Lower Part of Body—Son Also Affected.

A TRIPLE CURE BY CUTICURA REMEDIES

"About ten years ago my scalp became badly affected with sores and itching humors, crusts, etc., and extending down behind the ears. My hair came out in places also. I was greatly troubled; understood it was scap. Tried various remedies, so called, without effect. Saw your Cuticura advertisement, and got them at once. Applied them as to directions, etc., and after two weeks, I think, of use, was clear as a whistle.

"I have to state also that late last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skillful treatment of my doctor, combined with Cuticura Soap and Cuticura Ointment, I found myself cured.

"Six years ago my son was laid up with a severe cold, a hard cough, and finally painful eruption all over the body. I procured the Cuticura Remedies as soon as possible, and after his faithful use of same was as well as ever in two weeks, as well as I can recall. He has never had a return of the illness, as far as I know.

"I have always been pleased to commend the Cuticura Remedies, and testify as to their efficacy. I am a veteran of the late Civil War, '61-'65, between seventy and eighty years of age. Yours truly, H. M. F. Weiss, Rosemont, Christian Co., Ill., Aug. 31, 1905."

Send for Free Booklet, "How to Cure the worst Itching, Scap, Eruptions, and Skin Diseases, with Cuticura Soap and Ointment." Also, "How to Cure the worst Itching, Scap, Eruptions, and Skin Diseases, with Cuticura Soap and Ointment." A single copy free. Write to J. C. Ayer & Co., Lowell, Mass., or to J. C. Wealthiest Negro Farmer.

Cody Bryant enjoys the distinction of being the wealthiest negro farmer in Georgia. Bryant's estate, which he has accumulated without receiving outside aid within the last quarter of a century, is reputed to be worth between \$50,000 and \$100,000. He owns unencumbered nearly 3,000 acres of the finest farming land in Middle Georgia, much of it being valued at \$50 an acre. In addition to his extensive landholdings Bryant has large sums invested in various enterprises in his section. Bryant runs about 60 plows on his various farms in Jasper county.

A Paint Problem

Paint either spreads well, looks well and wears well, or it doesn't. Wear is what determines real paint value. Any practical painter will tell you that a paint will live only as long as the oil that's in it lives. The oil is the life of paint. "Dead Oil, Dead Paint."

HAMMAR CONDENSED PAINT It is not a "ready-mixed" paint. It comes to you in condensed form; the driers, everything necessary in it, except the oil. You buy pure, raw linseed oil and do your own mixing. Sure of pure oil that way—not otherwise. One gallon of pure raw linseed oil and one gallon of Hammar Condensed Paint will cover more area, wear longer, and give better results than any other paint made. That's strong talk, but "Hammar" is strong paint. One gallon of Hammar Paint and one gallon of linseed oil will cover 600 square feet of surface with two coats and it won't come off. Guaranteed to stick for five years or money back.

We have the exclusive agency for Hammar Paint in this place, and we tell you the before you paint and tell you why "Hammar" is the best paint you can use. Now you can save at least 15% on your next paint bill.

My "Old" Kentucky Home.

Why the "old" Kentucky home? Kentucky is a comparatively new country. The United States is a very youthful member of the family of nations. But age is not measured by years, but by wisdom, while it must be remembered that in our expansive and flexible American language the term "old" is often used as a form of endearment. "Young folk, silly folk; old folk, old folk," if a quaint Dutch saying without general application in America. There are young folk, silly folk, old folk and silly folk in this country also, as well as in others. Kentucky is "old," not because of the antiquity of its settlement but because of the effort it required to win it for civilization and because of the love its people bear it.

As things go in the New World, Kentucky may, however, lay claim to a certain American antiquity.

Nowadays practically all the California honey is extracted before sale. The reason for this is that the wax of the comb is proved to be absolutely indigestible. Is beyond the action of acid and is absolutely tasteless. Furthermore, aside from the half given by the pure food laws, it is not as easy to dilute honey as is some might suppose.

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Grayville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest Cough and Cold cure and Throat and Lung healer. Guaranteed by St. Bernard Drug Store, 50c and \$1. Go to Bed Warm.

"Never go to bed chilly," warned a physician. "There is always hot water to drink when everything else fails, and that will do the work of warming up the stomach and sending a glow through the whole body. You can do better than plain hot water; keep a small bottle of capsicum at hand, and eight or ten drops of that in a cupful of sweetened hot water makes an admirable beverage. More than that quantity would be unpleasantly hot for most tastes. Hot milk is an ideal bedtime beverage, and so is malted milk, beef tea or cocoa. Many a woman finds that something warm in the stomach means a good night's rest, and it would be the same of illness to neglect it."

Fighting Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great success and popularity of their Honey and Tar many imitations are offered for the genuine. RENT PAYS FOR LAND.

Fertile Sections of the Southwest, Where Land Sells for \$15 and Rents for \$5 Per Acre.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for 15 per acre cash and can be bought for \$7.50 to \$15 per acre. It costs from \$5 to \$10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich, alluvial, or made. It produces a bush of cotton per acre worth \$45 to \$60. This accounts for its high rental value. Other crops, such as corn, small grain, grasses, vegetables and fruits thrive as well. Alfalfa yields 4 to 6 cuttings, a ton per acre.

In other sections of these states, and Texas as well, the rolling or hill land is especially adapted to stock raising and fruit growing. Improved farms \$10, \$15 to \$25 per acre. The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$3 per acre.

Use this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

AN ADDRESS BY THE PRESIDENT

A TALK TO CIVIL SERVICE REPRESENTATIVES.

HONESTY THE KEYSTONE

The President declared the intrusion of political reasons in making appointments was always detrimental.

Washington, May 16.—President Roosevelt delivered an address at the White House, Tuesday afternoon, to representatives of several state and municipal civil service commissions, and of the national civil service reform league who met here for a conference with the commissioners of the general government with a view to considering questions for the betterment of civil service throughout the country.

The President's Address.

The president said in part: "One of the gratifying things of recent years has been the rapid spread of interest in the whole movement, and because of that interest it is peculiarly incumbent upon you to see that there is not a chance for the opponents to say that it is not practical. The efficiency of the service, with honesty as, of course, the keystone of efficiency, must be the prime test of what you do."

Exceptions to Rules.

The president said that exceptions to rules will always be found necessary, mentioning promotions by the system of written competitive examination as an instance where the best results were not secured. He urged the delegates not to be afraid to make these exceptions. "But," he continued, "be sure you are making the exception for proper reasons. In other words, do not believe for one moment that any system of rules can be devised under which it will be possible to shield yourself from the duty of exercising your own judgment, your own independence."

A Matter of Personal Experience.

"After considerable experience in almost every kind of governmental work I have never yet found any position or any branch of the service as regards which the intrusion of political reasons in making appointments does not do damage."

Almost Without Exception.

"Practically without exception I find that an office in which there is laxness in the administration of the civil service law, where there is an effort to circumvent the law, where there is effort to get around it, is an office in which poor service is rendered; the chance for fraud, for peculation, for dishonesty, is always greater in such an office than in the office where the law is well and faithfully observed. And while, of course, it is true that the mere observance of the civil service law can never result in a thoroughly efficient administration of any office, yet I am inclined more and more to feel that the observance in letter and spirit of the civil service law is the first requisite in obtaining clean, decent, efficient governmental service in any branch or bureau of the government."

YOUNG PROSPECTORS DEAD IN DEATH VALLEY

Caliente, Nev., May 16.—Joseph Constantine, a prospector, who has just returned from a trip into Death Valley, reports the finding of the bodies of two young prospectors at the foot of the Funeral Range.

Both men wore trousers bearing a label, "Welsh, the Tailor." One of them carried a watch inscribed "M. G. H." and wore a seal ring bearing the letter "H."

The men perished nearly 30 miles from water. The fingers of one man had been worn to the bone digging in the sand, evidently in an attempt to reach water. Constantine and his men brought the bodies out and buried them near Carroll Springs.

MAJ. BARAK G. THOMAS

The Nestor of Kentucky Racing and Founder of the Famous Dixiana Stud Breed.

Lexington, Ky., May 16.—Major Barak G. Thomas, the "Nestor" of Kentucky racing, breeder of Domino and Hinzar, and founder of the famous Dixiana stud, died in his eightieth year of senile debility. He was well known all over the world as one of Kentucky's most noted breeders of thoroughbred horses. He was a confederate soldier and once sheriff of Fayette county. He leaves a valuable estate.

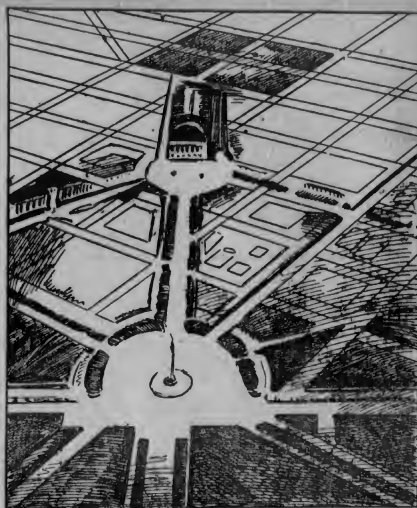

"Pay Fare or Stay at Home."

St. Louis, May 16.—"Pay fare or stay at home" is the ultimatum issued by the managers of all railroads in Missouri to politicians who desire free transportation to the democratic and republican conventions soon to be held at Excelsior Springs and Jefferson City.

PULAJANES LOOT TOWN IN SAMAR

KILL ONE, WOUND SEVEN, CAPTURE 20 PEOPLE AND BURN THIRTY-SIX HOUSES.

The Governor of Samar Says That the President of the Island Will Indorse the Policy of Extermination of the Rebellious Natives.

Manila, May 13.—The following dispatch has been received from Acting Governor Ciano of the island of Samar:

"A band of 24 Pulajanes, having rifles and other weapons, entered Inabanga by the Barru Wright (Wright ward), named in honor of former Gov. Wright, Saturday, killing one and wounding seven residents, burning and looting 36 houses and taking over 20 residents prisoners."

"Troops, constabulary, policemen and volunteers are pursuing the band."

Advice Extermination.

George Curry, the governor of Samar, who is here on his way to Baguio, province of Benguet, the summer capital, to consult with Gov.-Gen. Ide, says that all the presidents of Samar will shortly call on the governor-general and indorse the policy of extermination of the rebellious natives, which is supported by the peaceful inhabitants of Samar.

Gov. Curry has received a cable message from President Roosevelt congratulating him on his escape during the fight with Pulajanes at Maguigan recently.

Rev. Dr. Rufus J. Johnson, pastor of the Fifth Avenue Baptist church, the "Rockefeller church," as it is called, has tendered his resignation. His health is given as the cause.

The Russian duma, or parliament appears already to have taken the hits in its teeth. The constitutional democrats, in large majority, chose Prof. Mouravieff as president, and instructed him to notify Nicholas that they wanted amnesty for political offenders, and that the council of the empire, or upper house, should be made a consultative body.

The complex question of the commercial and political forces involving the fate of railroad rate legislation was solved by the Allison amendments, not as originally drawn by the conservative republicans and accepted by the president, but materially altered by the radicals, by restricting injunctions, cutting out "fairly remunerative" and by limiting to two years the time during which an order shall remain in force. Other amendments adopted were to prevent carriers from engaging in business that competes with ships, abolishing private car lines, restoring the imprisonment penalties and others.

INTERFERENCE IN PANAMA

INSTRUCTION TO GOV. MAGOON OF THE CANAL ZONE.

Lawless Movements Which Interfere With Work On the Canal a Cause for Interference.

Washington, May 12.—Revolutionary movements or election troubles in Panama which in any way interfere with work on the canal zone justify the interference of the United States in support of the Panama government.

Such is the tenor of the instructions sent to Gov. Magoon of the canal zone by Secretary Taft, who also submitted to Gov. Magoon a letter from Secretary Root of the state department setting forth in detail what is stated to be the justification of American interference in case of disorder in any part of Panama.

This emphatic setting forth of the position of the United States, it is believed, will prevent any serious trouble at the elections to be held in June.

As Secretary Taft makes it clear that any disorder in the republic will hinder canal work, his letter will be doubly discouraging to opponents of President Amador, who are reported to have been planning a movement against him outside of the canal zone, believing that the United States would not suppress any insurrection unless it extends within the zone.

Gov. Magoon communicated his instructions to the Panama government, and Secretary Taft made public both his letter to Gov. Magoon and the letter of Secretary Root reviewing the relations of the United States and Panama.

In his letter to Gov. Magoon, Secretary Taft says that such action ought not to be taken unless it is fully established that the government of Panama is not able to maintain itself.

SEVEN MEN TORN TO PIECES

DYNAMITE EXPLOSION IN A PENNSYLVANIA MINE.

In Addition a Dozen Men Were Badly Burned, One So Badly That He Will Die.

Shenandoah, Pa., May 16.—Seven miners were torn to pieces and 12 badly burned by an explosion of dynamite in the Shenandoah City colliery of the Philadelphia & Reading Coal and Iron Co. Tuesday.

A box of dynamite which a workman was carrying fell from his shoulder and caused the explosion which ignited the mine gas. There were about 60 men at work in the east gangway of the shaft when the explosion occurred, but so far as known all escaped except those working on the first lift in this part of the shaft none escaped either death or injury.

It was several hours before the last miner was brought to the surface.

Fire Boss Samuel Powell was the first person to be taken from the mine. He is so terribly burned that he will probably die.

WINDFALL FOR A SAN FRANCISCO WIDOW

San Francisco, May 16.—Two hundred and fifty thousand dollars awaits Mrs. Andres Nelsen, a widow with nine children, who was burned out during the frightful holocaust, and who is now believed to be in some refuge camp about the city with her little ones. Her husband, a hard-working tanner of this city, though he was the son of a wealthy father in Sweden, died in July, 1898, leaving the family destitute. They lived on the south side, and the woman, too proud to appeal to her wealthy father-in-law, worked hard to support herself and little ones. They lost all when the fire swept the city. Now comes word that the father-in-law in Sweden is dead, and his large estate all is to go to the widow and children of his dead boy.

THE BATTLE FOR THE GEO. N. BROWN ESTATE

Denver, Col., May 16.—Mrs. Marie Fleming Everett Brown-Bailes, of St. Louis, has won the first round in the legal battle for possession of the George N. Brown estate, valued at about \$300,000.

A jury in the district court, Tuesday, decided that Mrs. Estes did not marry Oscar Elmo in St. Louis, as charged by Mrs. Sarah N. Brown, the mother of the deceased. All that now remains to make victory perfect is producing proof that she was legally married to Brown. This will be the mere form of producing the marriage license.

BAD STORMS IN GERMANY

People and Stock Killed, Vineyards Ruined and Numerous Farm Houses Destroyed.

Berlin, May 16.—Terrific thunderstorms were reported, Tuesday, from several parts of western and southern Germany.

A hailstorm did a great deal of damage to the vineyards and the crops in the fields in lower Franconia.

Several persons were killed by lightning and numerous farm houses were burned and the animals killed in the neighborhood of Treves, which also suffered severely from a hailstorm.

In parts of the Moselle wine districts the year's crop has been destroyed.

In the lower Rhine district, however, the protracted drought continues to prevail. In most parts of northern Germany the meadows are drying through lack of rain and the cattle are suffering.

DECLARES IT RIDICULOUS

Denies Judson So Characterizes Report That Rockefeller's Pastor Will Head University.

Chicago, May 16.—A report is telegraphed from New York that Rev. Rufus T. Johnson, known as John D. Rockefeller's pastor, who resigned the pastorate of the Fifth Avenue Baptist church last week, is to become president of the University of Chicago.

Prof. Henry Pratt Judson, dean of the university, says "Ridiculous!"

The Church Congress.

Philadelphia, May 16.—The church congress, composed of lay and clerical Episcopalians from all parishes of the United States, began its convention here, Tuesday. At the meeting, Tuesday night, in the Auditorium of the Y. M. C. A., the "Problem of Child Protection" was discussed.

Brig.-Gen. John T. Tidwell.

New York, May 16.—Brig.-Gen. John Caldwell Tidwell, U. S. A., retired, first governor of Alaska and for many years commander at West Point, died at his home in Montclair, N. J., Tuesday, aged 81 years. Gen. Tidwell was born near Wheeling, W. Va., and was graduated from West Point in 1868.

Without Foundation.

New York, May 16.—The rumor published in the United States under a Berlin date, that Prince Bismarck Frederick, second son of Emperor William, was dead, is without foundation. The prince is in perfect health.

An Old Cherokee Judge.

Albuquerque, N. M., May 16.—Judge Henry C. Ross, a widely-known Cherokee Indian, died at his home near Santa Fe, Tuesday, May 16. He was one of the old-time judges of the Cherokee courts under the old Indian regime.

Boycotting Religion.

Chicago Methodists plan to hold a series of revival meetings, and the Chicago Federation of Labor has decided not to "recognize" the movement because the Methodist Book Concern refuses to pay union wages. Members of labor unions are notified that they must not attend the meetings under penalty of fines.

This is carrying the "boycott" to absurd lengths. It will hurt the labor unions more than it will the Methodists.

Two deer appeared in Winsted, Conn., recently, and, frightened by an approaching team, leaped through the plate glass window of J. S. Wysock's dry goods store. The crash of the glass awakened persons livid in the vicinity of Lake and Main streets, who ran to their windows in time to see two does run up Main street. They crossed Madison street, disappearing in the direction of Highland lake. Mrs. M. B. Hall, who saw the deer jump, said that neither animal touched the sidewalk going or coming from the store.

Tact and Policy.

A high fence should be built between the words tact and policy for the benefit of those who cannot see the bordering line.

"Oh, I have no tact!" they say with a satisfied air. "Tact and policy are things I know nothing about."

And yet the two qualities are as distinct as north and south. Tact comes from the heart, and policy from the head. Policy is inspired by selfish interests and is a treacherous quality that one might well boast the lack of. Tact springs within from an unwillingness to hurt feelings, and it is the mark of innate kindness that has no personal motive. Tact is no enemy to truth. It offers truth on a silver instead of throwing it in the face, that's all. Philadelphia Press.

For a painful burn there is nothing like DeWitt's Witch Hazel Salve. There are a host of imitations of DeWitt's Witch Hazel Salve on the market—see that you get the genuine. Ask for DeWitt's. Good, too, for sunburn, cuts, bruises, and especially recommended for piles. The name E. C. DeWitt & Co., Chicago, is on every box.

Hot Water Quota a Bear.

A big black bear took possession of the cab of a Colorado & Southern locomotive near Como, Col., and fought fiercely rather than abandon the warm abode. It was finally routed out with hot water and a hose from another locomotive. A snow-plow with five locomotives had been engaged in clearing the tracks of snow and during the night the string of engines was left on a side-track, with fires banked and only one watchman. The next morning the bear was found in one of the cabs. None of the party was armed and other means to dislodge him having failed the hose was used and brim took to the mountains.

Postmaster Robbed.

G. W. Kouts, Postmaster at River-ton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; upon my doctor's prescribed Electric Bitters; which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, Weakness and all Stomach, Kidney and Bladder derangements. A wonderful Tonic. At St. Bernard Drug Store, 50 cents.

"There is no place like home." Refugees from Venustus are said to be already moving back to their old places on the mountain sides.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Dr. Pierce's Favorite Prescription
Is a powerful, invigorating tonic, imparting health and strength in particular to the organs directly feminine. The local, womanly health, is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For the thousands of women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving power.

As a soothing and strengthening nerve-nerve, Favorite Prescription is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic constipation, inflammation and ulceration.

Modern medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendly whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the "Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

During Queen Anne's reign there was shown in London and other parts of England a most peculiar disease called "German measles" without hands or feet who threaded a needle, cut gloves, etc.
